PRODUCT DESCRIPTION

PREMIUM QUALITY PERSA RELIEF CERAMIC WALL TILES

The Persa Relief range is based on the visual effect of a natural stone, MMG tile & stone presents the Persian collection, a collection of 4 colors that recreate marble in a matt finish. An elegant collection in a balanced format with a relief with waves in four colors to create environments within the same space.

Ceramic tile is one of the oldest forms of tile making. The tradition of making them goes back centuries. This tradition started in Italy, Spain and Turkey. Initially, a few colors, such as cobalt blue were one of the few colors available. Certain natural pigments provided these colors of blues, creams, and earth colors.

Ceramic tiles can be used in bathroom walls, kitchen backsplashes, and many other

decorative walls. For commercial spaces such as spas and swimming pools, these tiles can provide decorative ornament to express one's desire.

Subtle Decoration 13x22 in size, stone with beige veins, Designed to be combined with floor and wall tiles in the persa relief range
