PRODUCT DESCRIPTION

DESCRIPTION

THE FUTURE OF TRADITION PORCELAIN WORLD ATELIER ESSENCE

C0mbed Sophisticated irregular lines interrupted by handcrafted details, The imperfection of the strokes adds authenticity to the wall effect.

Bold linear striations characterize this distinctive surface of MMG tile & stone Veneer World. This porcelain replica of the traditional machined tool surface is distinguished by irregular, roughly parallel, grooves that give every decorative wall a distinctive, while at the same time elegant, look. The decorative result of Atelier Combed is obtained not only by the bold linear striations of the surface, but also by its play of shadows and lights filtering through the grooves.

Traditional Veneer is reimagined to preserve its beauty and authentic stone feel, while pushing boundaries of material excellence thanks to highly performing porcelain veneer. Refined, modern surfaces, impervious to extreme temperature and unpredictable weather, immune to the signs of time. The tradition has a new future with porcelain veneers.

Veneer World is the most comprehensive line of porcelain veneers for outdoor environments and indoor spaces, redefining the longstanding American tradition of stone-

inspired walls and decors. A vast selection of solid surfaces for total look projects, ensuring in & out continuity to match MMG endless portfolio of looks, colors and surfaces.
