PRODUCT DESCRIPTION

DESCRIPTION

DIALOGUE BETWEEN MATERIAL AND ARTISANAL CRAFTMANSHIFT SUBWAY WALL TILES

Tint explores the decorative potential of wall coverings in a dialogue between material and craftsmanship. The **Tint bricks**, in the 2x6 size, are characterised by graphic and colour shading that combine to create depths typical of **handmade products**, enriched by a material with irregular edges and ever-changing surfaces. The matt finish takes the collection towards a contrast **between vintage and minimalism**, also thanks to the eight colours, from the more traditional Blanc, Dune and Fog to the natural inspirations of Sea Glass, Garden and Water to the more intense Ocean and Cityscape.

With Tint, tradition and innovation combine to create designs that can be modulated to combine the more traditional taste of ‘old-fashioned’ products and settings with more minimalist and contemporary looks.

Enriched by a layout with irregular edges and ever-changing surfaces, Tint offers a vintage look updated for today’s designs. It is the matt finish that takes the collection even further towards a contrast between traditional and modern, making Tint a very suitable collection for interior walls in commercial or residential application
