PRODUCT DESCRIPTION

SUNWOOD QUARTZITE NATURE'S WARMTH, CRAFTED FOR OUTDOOR LUXURY

Defined by its warm, multicolored palette, this quartzite brings together tons of gold, green, pink, tan, and grey for a richly layered, organic look. Sourced from India, it offers a refined balance of durability and natural beauty, making it well-suited for both residential and commercial outdoor spaces. Produced in a gauged 3 cm thickness and available in two formats.

Sunwood Quartzite Ledger Panels are premium natural stone panels crafted from durable quartzite. Each panel showcases warm, earthy tones with subtle veining, offering a natural, textured appearance that enhances both interior and exterior spaces. Ideal for accent walls, fireplaces, facades, and landscaping features, these panels provide timeless elegance, exceptional strength, and low maintenance, making them perfect for modern and rustic design applications.

EDGER PANELS, also known as stacked stone, stone veneer, ledgerstone cladding, create a distinguishing curb-side appeal to your project. Adding architectural dimension and texture to both commercial and residential backgrounds. Most ledgers are stacked planks assembled in 6"x24", 6"x6", 6"x18" mesh mounted panels, made up of individual pieces that have been fit and glued together, and not required grout because of the tight joint

Versailles Set 3cm includes: (1) 16" x 24", (2) 16" x 16", (1) 8" x 16", (2) 8"x 8" for a total of 6 pieces/set
