PRODUCT DESCRIPTION

AUTHENTIC NATURAL STONE WHITE QUARTZITE COPING AND PAVER

Bring timeless elegance and exceptional durability to your outdoor spaces with **White Quartzite Natural Stone Pavers**. Known for their subtle sparkle and sophisticated appearance, these pavers feature a crisp, light color palette ranging from soft white to pale gray, often accented with delicate veining and natural texture. Quartzite's inherent hardness and resistance to weathering make it ideal for high-traffic areas, including patios, pool decks, walkways, and driveways.

These pavers are not only visually striking but also low-maintenance, slip-resistant, and capable of withstanding extreme temperature fluctuations. Whether you're aiming for a modern, coastal, or classic design, White Quartzite pavers offer a refined, luxurious finish that complements any landscape.

White quartzite Pool coping refers to the material or edging that is installed around the perimeter of a swimming pool. It serves both functional and aesthetic purposes, acting as a transition between the pool and the surrounding deck or landscape. Pool coping can help protect the pool structure, provide a safe edge for swimmers, and enhance the overall appearance of the pool area.

Versailles Pattern includes: (1 pcs 16" x 24"), (2 pcs 16" x 16"), (1 pcs 8" x 16"), (2 pcs 8" x 8") for a total of 6 pieces/set
