PRODUCT DESCRIPTION

DESCRIPTION

AUTHENTIC NATURAL STONE EQUATOR MARBLE MOULDING

Molding (decorative), or molding, is a strip of material with various profiles used to cover transitions between surfaces or for decoration. Molding is more commonly used here in the US, but the origins of the world come from Europe where the proper spelling is moulding.

Equator Marble is a kind of Grey marble quarried in Turkey. This stone is especially good for Countertops, monuments, mosaic, exterior – interior wall and floor applications, fountains, pool and wall capping, stairs, window sills and other design projects.

It also called : White Marmara Marble, Marmara Extra, Equator , Waterfall, Marmara Marble can be processed into Polished, Sawn Cut, Sanded, Rockfaced, Sandblasted, Tumbled and so

on.
