PRODUCT DESCRIPTION

DESCRIPTION

EXTREMELY PRECIOUS NATURAL STONE TOP QUALITY SAINT LAURENT MARBLE TILES

Quarried in France, saint Laurent is a naturally occurring dark brown marble with white light veining.

Brown marble has been considered a classic associated with luxury and elegance, but today it is an avant-garde material that inspires mystery in environments that radiate an over whelming personality. As it is a color that reduces luminosity, it is recommended for use in bright rooms, spacious rooms, as well as in bathrooms and kitchens.

On the other hand, it can also be used on facades and cladding without any problem. If the discreet but more concentrated white veins of the Canfrancdazzle like flashes of light in the middle of a starry night, the intensity and irregularity of the Brown marble captivates with its beauty until it rises to the category of mystery. Spectacular options that transform and revolutionize any environment at the whim of the decorator

The finest natural stone saint laurent is one of the most elegant marbles for premium architectural building projects, Natural stone tile sometimes referred to as “field tile” can be used on most surfaces to envelope a space in luxurious materials. Each tile is a unique piece

of earth, a natural specimen, selected by MMG tile & stone for its inherent beauty, and manufactured to exacting standards to ensure consistency within lots of materials, and the proper presentation of the designed aesthetic. These tiles create the foundation of any designed space
