DESCRIPTION

CREATE BEAUTIFUL SPACES WITH ANTIQUE GREEN PORCELAIN TILES

From light sage to vibrant lime and deep, dark emerald, there are so many shades of green tile to love. However you decide to incorporate it, choosing green for your next project means you can experience the joy and tranquility of this nature-inspired family of colors inside your home all year round.

Green Tiles: Green is a versatile color that pairs effortlessly with cool and warm palettes. From glossy sage to pale mint to deep forest green, there is a shade for traditional, contemporary and rustic styles. Emerald green can be prominently featured with shades of white and grey in stately quartz and marble tile.

Porcelain Tile: Porcelain is a manmade material composed of natural ingredients fired at very high temperatures, making it a low-porosity, durable tile option that works well in high-traffic, commercial, or hospitality spaces. Porcelain is an excellent choice for floors, bathrooms, showers, and kitchens due to its durability and low porosity. MMG tile & stone curates a selection of porcelain tile that uses the format creatively to extend classic material aesthetics into new spaces and applications or to add a designed style to spaces like lobbies, basements, and garages that previously had fewer options accessible.
