DESCRIPTION

SEMPITERNAL BEAUTY BIANCO LASSA ITALIAN STYLE THAT INSPIRES PORCELAIN TILES

Bianco Lasa is the artificial interpretation of Italian marble known for its white color and for its history. During Ancient Romans the most important ways of communication and sculptures of prestigious patrician villas and mansions were made of Lassa Marble.

Bianco Lasa porcelain tile is inspired by the luxurious Italian marble, Lasa Bianco (or Lasa Vena Oro), known for its bright white base with subtle, warm golden and gray veining. These tiles are highly sought after for their ability to add an elegant, timeless feel to spaces. Unlike natural marble, Bianco Lasa porcelain tiles are more durable, stain-resistant, and low-maintenance, making them ideal for high-traffic areas, bathrooms, kitchens, and commercial spaces.

The collection interprets the natural marble, preserving and enhancing the essential beauty of the original noble material thanks to the technological excellence of the production process and the creative approach.

Our Design team takes inspiration from exquisite natural marbles and stones in order to create new design by harmonizing and perfecting the original qualities of marbles. The result

is unique new sintered marble design with excellent technical features and superior aesthetic which are human made but seems shaped from nature. Being one of the few using the precious dry-granula on the slab surface, MMG tile & stone team has devised a superior mirror-like, distortion free surface to enhance the original properties, color nuances and details of the natural marble with an unparalleled reflection.
