We are introducing our exquisite Classica Crema collection, inspired by authentic marble’s timeless beauty and elegance. Our designers have reimagined this classic material, creating a unique interpretation that captures the power and allure of Classica Crema along with a fresh modern twist.

Porcelain Tile: Porcelain is a manmade material composed of natural ingredients fired at very high temperatures, making it a low-porosity, durable tile option that works well in high-traffic, commercial, or hospitality spaces. Porcelain is an excellent choice for floors, bathrooms, showers, and kitchens due to its durability and low porosity. MMG tile & stone curates a selection of porcelain tile that uses the format creatively to extend classic material aesthetics into new spaces and applications or to add a designed style to spaces like lobbies, basements, and garages that previously had fewer options accessible.
