PRODUCT DESCRIPTION

DESCRIPTION

GREEN MARBLE EFFECT WITH NATURAL VEINING PERFORMING SURFACES

An elegant shade for sophisticated interiors.

Verde France offers a refined reinterpretation of French green marble, featuring natural veining and a sophisticated texture. These technical porcelain slabs combine chromatic elegance with resistance and versatility, making them ideal for wall cladding, design flooring and bespoke countertops in luxury interiors.

Architectural solutions Quality and Performance Excellence, A complete range for every design need.

The great variety of Infinity slabs makes it possible to create porcelain stoneware countertops for a marble look kitchen with a more elegant style, or stone look tops to create a more material and natural kitchen environment. The concrete look kitchen countertop is ideal for creating more modern and minimalist environments. Porcelain stoneware slabs for metal look tops give kitchens a more high-tech and scenic look, while kitchen countertops with solid look slabs create rooms with maximum freedom of expression

The Verde France slab is ideal for the creation of marble look kitchens, giving any place an elegant atmosphere, These large Verde porcelain slabs can be used for countertops, backsplashes and as cladding for all types of worktops.

MMG tile & stone is an Exclusive Distributor of Infinity Surface.

We ship slabs all across North America
