DESCRIPTION

THE NATURE OF IMAGINATION CAPTURE THE WORLD IN QUARTZ SERENO BIANCO

Quartzite inspired quartz, featuring a grey and white background with delicate grey veining

Sereno Bianco's misty white base and subtle, dimensional grey veining tells the timeless story of Socotra island's curious dragon trees which sprout like upsidedown roots, stark against the arid ground and stretching skyline. Spikey crowns of tangled branches paint the sleepy misty valley and craggy plateau with a feeling of life and movement.

The perfect juxtaposition of boldness and diff used natural shade, of playful tangled branches and gentle rolling hills is an image of resilience and imagination. We bring this story to life in Serano Bianco's elaborate swirls of dense grey veining, the cloudlike background appearing energised by the complex bursts, stretching, like the trees they were inspired by, towards a lifegiving misty sky with a play of natural shade against grey and white.

Quartz Transforming living spaces with the essence of our living world. An alchemy of craftsmanship and art, a mastery of beauty Vadara quartz captures the stillness, flow and endless wonder of nature's most captivating corners and sets them into each handcrafted piece, for a surface that's fit for purpose but etched with possibility.
